THE SUN JOB PRINTING OFFICE

SPECIALLY EQUIPPED FOR LARGE EDITION WORK BALTIMORE

THE GUNTHER BUILDING

Another of Baltimore's Elegant New Office Buildings—located corner Fayette and St. Paul streets, in the heart of the city.

A few handsome, well-lighted offices are to be had at very reasonable terms. For information apply at Building.

An elegant business men's lunch at popular prices served in the handsome cafe on the ground floor.

OFFICE BUILDING DEPARTMENT

EQUITABLE BUILDING

LOCATION.

The location of the EQUITABLE and CALVERT BUILDINGS, facing on Calvert, Fayette and St. Paul streets and "plaza" is the best in the City, being opposite the COURT HOUSE, making both especially convenient for Lawyers, near the City POST-OFFICE and one square from the CITY HALL.

SAFETY AIR CUSHIONS.

All elevators, in addition to being provided with every known SAFETY APPLIANCE, are equipped with IMPROVED AIR CUSHIONS. Only large Office Buildings in the City with Air Cushion Equipment.

WATER CURTAINS.

WATER CURTAINS and STANDPIPES connected with the Company's SPECIAL FIRE PUMPS afford full protection against fire.

WATER.

The entire water supply of both buildings is FILTERED.

HEATING.

The heating system of the buildings is of the VACUUM type, which allows for regulation of the temperature of the offices and halls.

WATCHMEN.

Watchmen patrol each building during the entire night, and the faithful performance of their trust is recorded by watchman's electric time detector connected with signal locks in every other room of each building and all halls.

CLEANING.

The cleaning of both buildings is done at night by the VACUUM SYSTEM - removing all dust direct from the offices. The only Office Buildings in this City equipped with this system.

BUILDINGS.

The EQUITABLE is nine stories high, exclusive of basement, and connects with the CALVERT by means of a covered bridge on the seventh floor.

The CALVERT is twelve stories high, exclusive of basement. Both buildings of absolute fireproof construction.

CALVERT BUILDING

ELEVATORS.

Of improved hydraulic type, run DAY and NIGHT every day in the year. Electric light signal device. Equipped with electric fans in Summer. Each building has a freight elevator, thus preventing annoyance to tenants resulting from carrying packages and boxes on same cars used by passengers. The elevators in each building are in charge of a DISPATCHER, whose duty is to regulate the starting of each car and take general supervision of this department alone.

"In a permanent structure, a good roof is only second in importance to a good foundation"

This Ben Franklin wisdom is still recognized and for over fifty years we have been collecting vast experience, and you can make it yours by the use of any of our roofs, guaranteed ten years

We use no materials that have not been tested under the most severe conditions, and do not offer adulterations of asphalt and oil, but Diamond Brand Roofing cement, and Acme Brand Tar Roofing felt

Of Ehret's Slag Roofing, simply ask your Architect or Builder of its widely recognized merits

Actinolite Tile Roofing is universally used for roof gardens, terraces, office buildings and hotels. A handsome, indestructible roof

Economite Tile Roofing is a light paved roof, strong, flexible, and proof against hard usage

1871 THE "HOWELL STEAM WASHER" 1907 AND STERILIZER

A scientific, practical, thoroughly automatic, up-to-date, labor-saving invention. No cranks to turn, no levers to push or draw, no labor, no wear on clothing by washing without friction, and warranted to remove streaks and stains that cannot be rubbed out on any washboard. The standard merits of this Washer has won it room on top, now holding the highest premium in the world.
